

Ntirety Data Consulting Services – Project-Based Database Assistance When You Need It

You have a lean IT budget and a critical database project that you cannot handle in-house due to lack of IT resources or skill sets. You need a partner who can quickly engage and complete the project on time and on budget.

Enter Ntirety – The Total Data Experts!

Ntirety delivers a variety of different consulting services to stabilize, optimize, and maximize your database and cloud environments. Its database gurus are recognized industry experts who have deep expertise in data services. Some members of its team have also published books on database development, implementation, integration, maintenance, and optimization.

Why Choose Ntirety Data Consulting Services

Get Access to World-Renown Database Experts

Ntirety brings database and industry expertise, best practices, and a solid project management methodology to quickly size and execute any project that impacts your SQL Server® and Oracle® databases.

- > **Database expertise** – Each Oracle team member has an average of 20 years of Oracle experience; each SQL team member has an average of 13 years of SQL experience. All team members have real-world experience and can solve even the most complex database issues.
- > **Industry expertise** – Ntirety serves businesses across a wide arrange of industries including financial services, healthcare, insurance, manufacturing, and telecommunications. We understand your business and your IT operations.
- > **Best practices** – Ntirety’s management and support teams bring knowledge, vast experience, and a track record of continued success – all of which have culminated in the development of well-defined, industry best practices, which they bring to every project.
- > **Project management** – Ntirety has developed a distinct methodology to effectively manage milestones and deliverables and ensure project quality and timeliness.

The Benefits of Ntirety Data Consulting Services

- > Extend your IT resources to support time-sensitive database projects
- > Get access to highly specialized database experts
- > Ensure your database project is completed on time and on budget
- > Realize peace of mind knowing that world-renown database experts are running your project

**“Ntirety has done an
outstanding job for us on our most
recent project and we are very happy
with the results.”**

About Ntirety

Gain deep insight from the database gurus

Comprised of the world's most enlightened database gurus, Ntirety's quality-driven team has worked with Oracle since version 3.0, and bring that same level of expertise to Microsoft SQL Server and MySQL. Our staff of experts has contributed their knowledge and shared their wisdom of the database sector by authoring many volumes on these key systems.

With every engagement, we deliver database enlightenment to our clients, mindfully monitoring the quality of our service and client outcomes. We take this so seriously that our teams' compensation is based on the results of customer quality surveys. All to ensure that our clients receive the best possible service.
